Policy 2.10

Medical Conditions

To support children's wellbeing and manage precise health requirements, our Service will work in accordance with the Education and Care Services National Regulations to ensure health related policies and procedures are developed and implemented.

National Quality Standards (NQS)

Quality Area 2: Children's Health and Safety		
2.1	Health	Each child's health and physical activity is supported and promoted
2.1.1	Wellbeing and comfort	Each child's wellbeing and comfort is provided for, including appropriate opportunities to meet each child's needs for sleep, rest and relaxation
2.2	Safety	Each child is protected
2.2.1	Supervision	At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard

Education and Care Services National Regulations

Children (Education and Care Services) National Law NSW	
90	Medical Conditions Policy
90(1)(iv)	Medical Conditions Communication Plan
91	Medical conditions policy to be provided to parents
92	Medication record
93	Administration of medication

94	Exception to authorisation requirement—anaphylaxis or asthma emergency
95	Procedure for administration of medication
96	Self-administration of medication

PURPOSE

We aim to efficiently respond to and manage medical conditions at the Service ensuring the safety and wellbeing of children, staff, families and visitors.

SCOPE

This policy applies to children, families, staff, management and visitors of the Service.

IMPLEMENTATION

Our Service is committed to adhering to privacy and confidential procedures when dealing with individual health requirements. There are a number of concerns that must be considered when a child with a diagnosed health care need, allergy or medical condition is enrolled at the service. Key requirements must be in place prior to the child commencing at the Service to ensure their individual health and safety.

The Approved Provider/Management will ensure:

- Educators and Staff have a clear understanding about children’s individual medical conditions.
- Communication between families and Educators is ongoing and effective.
- Educators receive appropriate training in managing specific medical conditions.
- There is an Educator in attendance at all times with current accredited first aid and CPR training for specific medical conditions including asthma and anaphylaxis.
- Educators have a clear understanding about their role and responsibilities when caring for children with a medical condition.
- Families provide required information on their child’s medical condition, including:
 - Medication
 - Allergies
 - Medical Practitioner contact details
 - Medical Management Plan
- A Medical Management Plan/Risk Minimisation Plan has been developed in consultation with families and the child’s medical practitioner.
- Educators have emergency contact information for the child.
- Casual Staff are informed of children and staff who have specific medical conditions or food allergies, the type of condition or allergies they have, and the Service’s procedures for dealing with emergencies involving allergies and anaphylaxis.
- A copy of the child’s medical management plan is visibly displayed in an area not generally available to families and known to staff in the Service.
- **A child will not be permitted to attend the service without in date medication**

- **A child is not enrolled at the Service without a Medical Management Plan and prescribed medication by their medical practitioner. In particular, medication that is life threatening such as asthma inhalers, adrenaline auto injection (EpiPen) devices and Insulin.**
- In the event that a child suffers from a reaction, incident, situation or event related to a medical condition the Service and staff will:
 - Follow the child's Emergency Medical/Action Plan.
 - Call an ambulance immediately by dialling 000
 - Commence first aid measures/monitoring
 - Contact the parent/guardian when practicable (within 24 hours)
 - Contact the emergency contact if the parents or guardian can't be contacted when practicable (within 24 hours)
 - Notify the regulatory authority (within 24 hours)

Families will ensure

- They provide management with information about their child's health needs, allergies, medical conditions and medication on the enrolment form and through verbal communication/meetings.
- The Service enrolment form is completed in its entirety providing specific details about the child's medical condition.
- They notify the Service if any changes are to occur to the Medical Management Plan.
- They provide the required medication and complete the long-term medication record.
- They provide an updated copy of the child's Medical Management Plan every 12 months.
- They give permission for their child's photo and personal information pertaining to the child's medical condition to be displayed within each room to ensure the child's safety

Medical Management Plan

- Any Medical Management Plan provided by a child's parents and/or registered medical practitioner. This Plan should:
 - have supporting documentation if appropriate
 - include a photo of the child
 - if relevant, state what triggers the allergy or medical condition
 - include first aid needed
 - Include contact details of the doctor who signed the plan
 - state when the plan should be reviewed
- A copy of the Medical Management Plan will be displayed for Educators and Staff to see to ensure the safety and wellbeing of the child.
- The service must ensure the medical management plan remains current and up to date all times.

RISK MINIMISATION PLAN

All children with a diagnosed medical condition must have a risk minimisation plan in place.

A meeting will be arranged with the parents/guardian as soon as the Service has been advised of the medical condition. During this meeting a risk minimisation plan will be developed in consultation with the parent/guardian to ensure:

1. That the risks relating to the child’s specific health care need, allergy, or medical condition are assessed and minimised.
2. That practices and procedures in relation to the safe handling, preparation, serving, and consumption of food are developed and implemented.
3. That the parents/families are notified of any known allergens that pose a risk to a child and strategies for minimising the risk are developed and implemented.
4. Practices are developed and implemented to ensure that all staff members and volunteers can identify the child, the child’s medical management plan and the location of the child’s medication.
5. **That the child does not attend the Service without medication prescribed by the child’s medical practitioner in relation to the child’s specific health need, allergy or medical condition**
6. Plan(s) are reviewed at least annually and/or revised with each change in the Medical Management Plan in conjunction with parents/guardians.
7. All relevant information pertaining to the child’s health and medical condition is communicated to parents at the end of each day by educators.
8. Parents are notified by educators in advance of any special activities taking place such as celebrations, sporting events or excursions so plans of safe inclusion can be developed.
9. Appropriate hygiene practices are followed by educators when managing medical conditions in accordance with the Control of Infectious Diseases Policy.
10. Risk minimisation plans are reviewed in collaboration with families every 12 months.

COMMUNICATION PLAN

A communication plan will be created after the meeting with the parents/guardian to ensure:

1. All relevant staff members and volunteers are informed about the medical conditions policy and the Individual Health Management Plan and Risk Minimisation Plan for the child; and
2. That an individual medication communication plan is created so that communication between parents and staff can be documented and any changes to the Individual Health Management Plan and Risk Management Plan for the child are in writing.

At all times, families who have a child attending the Service who have a diagnosed medical condition will be provided with a copy of this policy which includes a communication plan and any other relevant policies.
